Sergeant Major's Notes

The Soldiers of the Mighty 46th Engineer Battalion have performed magnificently. Since departure from home station our Soldiers led our arrival in Kuwait with the Warrior Spirit of American Soldiers. Since arrival our Soldiers have been going through intensive training to better prepare them for our mission in IRAQ, in the next couple of weeks.

Our Soldiers are motivated and inspired by our families that are left behind to take care of our love ones. I want Warrior Brigade to know that the Mighty Steel Spike Soldiers are getting it done. I'm very proud to be apart of the History that our Soldiers are making for this great nation. There is no doubt in my mind the Soldiers of the 46th Engineer Bn will "Make our Country Proud".

WARRIOR 7, Out!
